PROJECTS

Derm Assist AI – Healthcare Web Application (HTML, CSS, JavaScript, Flask, SQLite)

Technologies: Python Flask, SQLite, HTML, CSS, JavaScript | Live Demo: magenta-gingersnap-b40f1d.netlify.app

- Implemented user registration, login, and profile management features.
- Developed image upload functionality for preliminary skin disease analysis.
- Integrated doctor recommendation and appointment booking modules.
- Added skincare product recommendation features based on detected conditions.
- Connected frontend, backend, and database components into a working application.

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript, GitHub Pages, Netlify | Live: bavirisettysreechandana220504.github.io/My-Portfolio/

- Designed and developed a responsive personal portfolio website.
- Showcases education, technical skills, certifications, projects, and contact information.
- Integrated GitHub, LinkedIn, and resume download functionality.
- Implemented a modern responsive UI with project showcase and resume download features.

CERTIFICATIONS

- Web Development Course – Intrainz
- Adobe Illustration – REVA University
